9+ years in tech, since 2017 | **12M+** verified users on the KYC product I led | **3** continents: Hong Kong, New York, Lisbon

Product & RevOps manager with 9 years in tech, from Hong Kong to New York to Lisbon. On the product side, ran squads that built multiple products used by more than 10 million users. On the revenue side, built the account management stack that Vibe.co's CS and sales teams ran on. Started in Customer Success, so the customer comes first on both. Open to senior Product or RevOps roles and freelance missions.

Experience

Campus Coach — Product Manager

Nov 2025 – Sep 2026

Coaching app for endurance sports · **500K+ downloads** · Freelance, remote | Metabase · Figma · Notion · Claude

- Launched a multi-format learning content platform (video, audio, articles), growing lifetime content reach **10x**.
- Built a user-generated community forum on third-party integrations, driving **4x** weekly user activation.
- Built the core training-plan analytics feature from scratch, now used **4x a week** by active users.

Various clients — Product Manager & RevOps

2025 – 2026

Freelance missions · B2B SaaS & education · remote | Intercom · Figma · Notion

- **Coverage.tech**: designed and shipped the MVP of a new product vertical that won the first paying clients.
- **Hop-Place**: automated customer onboarding with Intercom workflows.
- **EM Lyon Business School, Makers Lab**: taught a hands-on product prototyping module to ~30 students (Oct 2025 & 2026).

Vibe.co — RevOps & Customer Success Ops

Sep 2024 – Apr 2025

Connected-TV ad platform, acquired by Walmart in 2026 · Freelance, remote | Planhat · BigQuery · Looker · APIs

- Built the account management system for **4 CSMs and 4 AEs** covering **hundreds of accounts**, on Planhat and BigQuery.
- Redesigned customer tiering and onboarding; set up usage KPIs and alerts to surface at-risk accounts early.

Pi Network — Product Manager, KYC

Jan 2022 – Jan 2024

Fintech network, valued at $10B+ at its Feb 2025 launch · Full-time, remote | Jira · Confluence · Figma · Firebase

- Led an **8-person squad** building Pi's proprietary KYC system, scaled from **1M to 12M+ verified users**.
- Ran discovery and R&D on the pipeline: AI-powered ID and liveness checks, then review by verified validators.
- Owned specs, roadmap, backlog and technical debt; set up user feedback loops and product analytics.

HEROW — Customer Success Manager → Product Manager

Apr 2019 – Dec 2021

Geofencing SDK & location platform · New York, then remote · promoted to PM in Oct 2020 | Productboard · BigQuery

- Led product through a double pivot: MarTech to **RetailTech** clients, and a legacy Java monolith to TypeScript/Python on **BigQuery**.
- Lead CSM on the US launch team: ran **~15 accounts**, demos and integrations, and secured early POCs before Covid ended the US expansion.

Agorize Asia — Customer Success Manager

Sep 2017 – Mar 2019

Open innovation SaaS platform · Full-time · Hong Kong

- Managed the **entire book of business** for 1.5 years: ARR grew **15x** (100K to 1.5M+) with clients such as AWS, Singapore Airlines and LVMH.
- The Asia team led the company's revenue growth into its **€13M Series B** (2019); ran pre-sales demos and 6 hackathons (1,000+ startups).

AI & automation projects

Job-hunt agent	Daily AI task that finds new openings, logs them in Notion and drafts tailored applications. Claude · Notion
Market morning brief	Self-hosted n8n workflow: market data APIs, LLM analysis, delivered by a Telegram bot. n8n · APIs · LLM
This portfolio ↗	Hand-written HTML, CSS and JS, no framework, built and shipped with Claude Code. Claude Code
